

CAREER 10

Name: INCKIDS105

ID: INCKIDS105

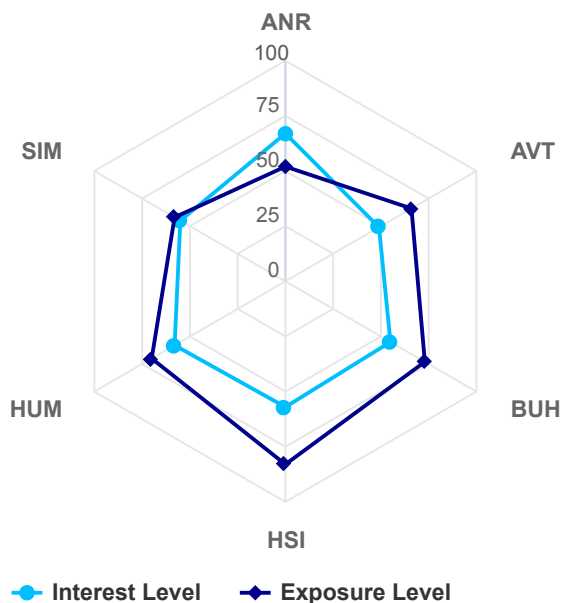

Test Date: 01 OCT 2026

YOUR PROFILE RESULT

Your interest level indicates which career field fascinates you while your exposure level indicates the activities you have actively learned/explored. The listed career fields below are amongst the suggested career areas you can focus on. The more a career meets your interests, the more likely it will be rewarding to you.

#	Career Fields	Scaled Score	
		Interest Level	Exposure Level
ANR	Agriculture & Natural Resources	67	52
AVT	Arts, Audio-Video Technology & Telecommunications	49	66
BUH	Business & Hospitality	55	73
HSI	Health Science	57	83
HUM	Human Services	58	70
SIM	Science, Information and Communication Technology, Manufacturing & Logistic Technologies	55	58

Scaled Score: 0 100

Low: 1-50

High: 51-100

How to Read Your Report

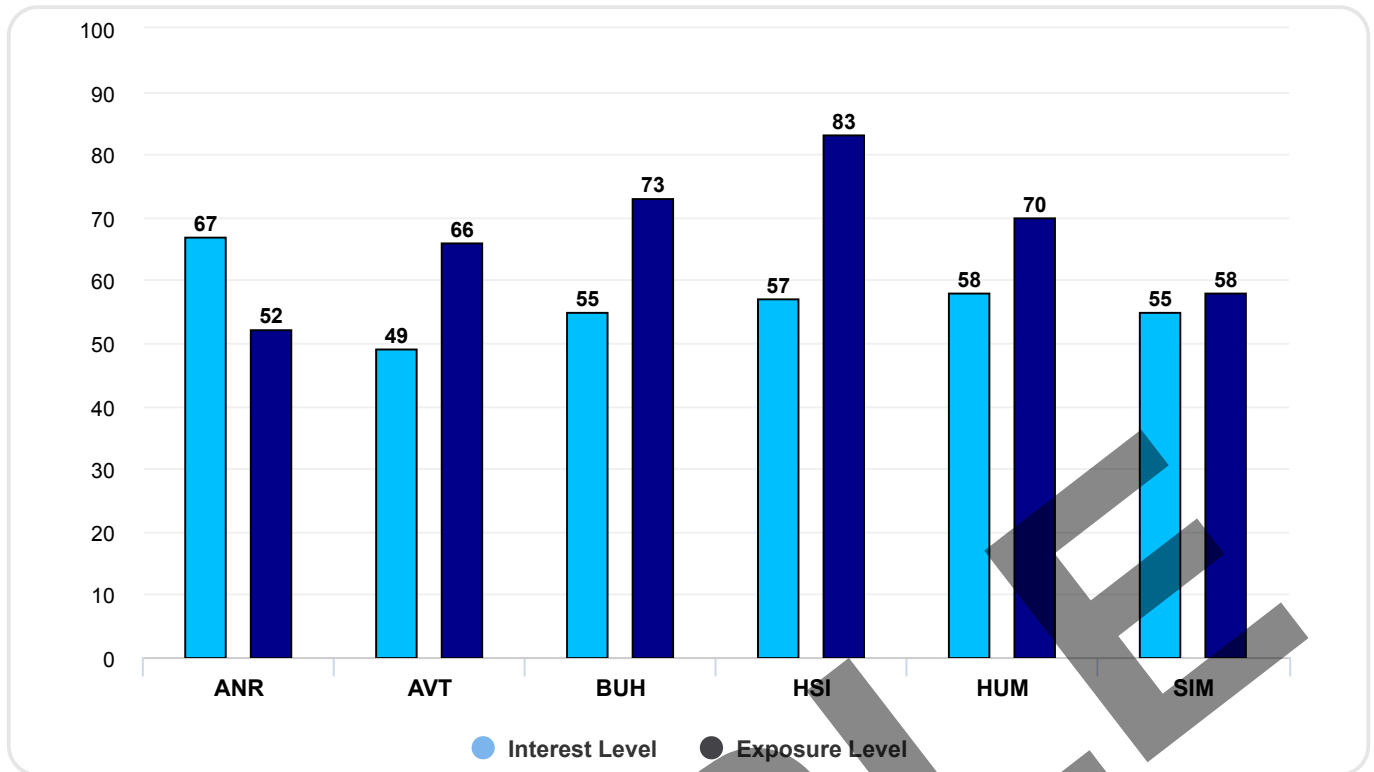

Your **Career 10** results look at two things:

- **Interest Level** – shows how much you **like or are interested** in activities related to each career field.
- **Exposure Level** – shows how much you have **learned about, tried or experienced** activities related to each career field.

For ease of interpretation, the raw score on each measure has been scaled to produce a standardised value. The scaled scores given in this report range from 0 to 100. A higher score means a higher level of **interest or exposure** in that career field.

YOUR PROFILE RESULT

**Low: 1-50****High: 51-100**

#	Career Fields	Scaled Score	
		Interest Level	Exposure Level
ANR	Agriculture & Natural Resources	67	52

- very likely to have participated in activities that work towards promoting health in individuals.

ABOUT CAREER 10

Career 10 is designed for individuals aged 10 years old to help you understand what types of careers may interest you. It looks at two things: **your interest and your exposure** to different career fields.

Interest shows how much you like or enjoy activities related to a career field. **Exposure** shows how much you have learned about, experienced or tried activities related to that field.

There are six career fields that show different types of work and activities you can explore. **Having both high interest and high exposure is ideal**, as it means you enjoy the field and have had opportunities to learn about or experience it.

Based on your results, the report will show your **Top 3 Career Profiles**. Your results are a guide to help you discover your interests and explore possible education and career pathways for your future.

Agriculture and Natural Resources

Enjoys outdoor activities related to plants, animals, as well as natural resources.
