KOMPAS 10

Name: SRT0196119

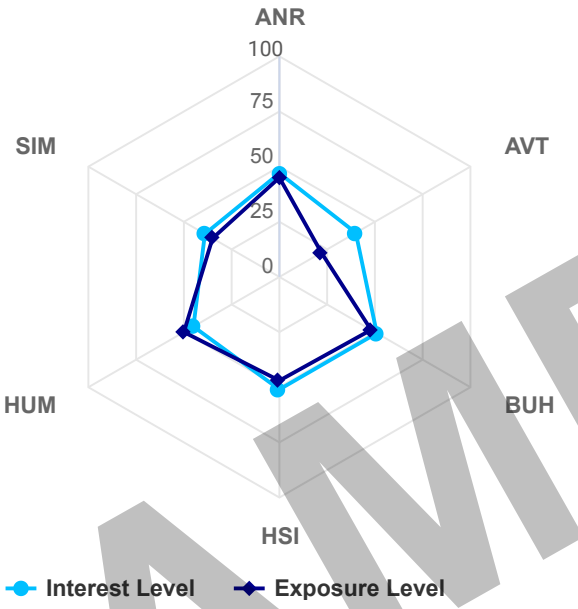
ID: SRT0196119

Test Date: 05 OCT 2026

SAMPLE

YOUR PROFILE RESULT

Your interest level indicates which career field fascinates you while your exposure level indicates the activities you have actively learned/explored. The listed career fields below are amongst the suggested career areas you can focus on. The more a career meets your interests, the more likely it will be rewarding to you.



#	Career Fields	Scaled Score	
		Interest Level	Exposure Level
ANR	Agriculture & Natural Resources	47	45
AVT	Arts, Audio-Video Technology & Telecommunications	40	22
BUH	Business & Hospitality	51	48
HSI	Health Science	51	47
HUM	Human Services	45	50
SIM	Science, Information and Communication Technology, Manufacturing & Logistic Technologies	39	35

Scaled Score: 0 — 100

Low: 0-50 High: 51-100

How to Read Your Report

Your **Kompas 10** results look at two things:

- **Interest Level** – shows how much you **like or are interested** in activities related to each career field.
- **Exposure Level** – shows how much you have **learned about, tried or experienced** activities related to each career field.

For ease of interpretation, the raw score on each measure has been scaled to produce a standardised value. The scaled scores given in this report range from 0 to 100. A higher score means a higher level of **interest or exposure** in that career field.
